## MIRACLE MILE SHOPS IS A LAS VEGAS SHOPPING DESTINATION

BY KEN MILLER

NOVEMBER 4, 2024

It's an all-too-common situation in Las Vegas: You've just secured tickets to your favorite nightclub or show, and then realize you forgot to pack a suitable outfit. If that's you, take a deep breath and relax. Everything is going to be OK, thanks to Miracle Mile Shops at Planet Hollywood.

This all-in-one shopping destination has all the looks you could possibly want to look and feel your best. Start with H&M, where all the latest fashion trends await, from dresses and sweaters to blouses and coats. If you're looking more for a denim-based look, GUESS has you covered with its iconic jeans, but make sure to check out its line of nondemin products as well, from jackets and shoes to swimwear. If you're looking to accessorize, Solstice Sunglass Boutique carries an extensive line of designer eyewear, from Fendi and Krewe to Maui Jim and Ray-Ban.

Part of looking your best is makeup, and stores like MAC Cosmetics, Lush and Sephora all offer top-of-the-line products. If you're looking to really sparkle, visit Pandora, which features both a signature line and a Disney line of jewelry, and Kay Jewelers, where you'll find a dazzling array of watches, bracelets, necklaces, charms and earrings.

With all this shopping, you're bound to get a bit peckish. Again, you're in the right place, as Miracle Mile Shops has plenty of convenient, delicious dining options right around every corner. Sammy Hagar's Cabo Wabo Cantina has all your Mexican food favorites, as well as cocktails featuring the Red Rocker's signature tequila. Pampas Steakhouse Las Vegas serves up your favorite meats, Brazilian Steakhouse-style, where red or green cards will give your server the signal to either keep serving or stop. And the tapas-themed Flights serves up a terrific brunch, lunch and dinner menu, with everything served in threes.

In the mood for a little diversion while shopping? Check out the free *Lost City Show*, playing every hour on the hour from 10 a.m.-11 p.m. near V Theater. This 3D-projection video show is based on Earth's elements, accompanied by a state-of-the-art sound system providing sounds of thunder, rain and more.
